Revolutionises Edge Protection

The Rapid-EPS offers a whole new approach to site safety. It's one of the quickest and most effective systems for giving edge protection to the construction industry. Potentially, it offers huge benefits in safety, efficiency and productivity. It also has the reassurance of full compliance to BS EN 13374:2004 for Class A protection

**CLASS A PROTECTION**  
Rapid-EPS complies fully to the requirements of  
BS EN 13374:2004  
OSHA 1926.502
