

Speedpost from

ISCHEBECK®

TITAN

- 10 times faster than standard edge protection systems
- No drilling required
- 20 metres erected in less than 10 minutes

Speedpost from

ISCHEBECK®

TITAN

Speedpost is one of the construction industry's quickest and most effective systems for providing immediate edge protection. Fully compliant with the requirements of BS EN 13374:2004 for Class A edge protection, Speedpost will transform your approach to this vital area of site safety.

Like for like comparative tests with drill and fix systems have shown that Speedpost's erection rate outstrips such systems by up to ten times, with in excess of 20 metres of safe, secure edge protection being installed in less than ten minutes!

Such impressive performance provides the contractor and workforce with clear, tangible benefits in safety, efficiency and productivity.

Speedpost from

ISCHEBECK®

TITAN

Installed in seconds!

Speedpost requires just three simple steps to install:

1. Extend

the post from ceiling to soffit

2. Tension

using the integral handle

3. Fix

edge protection panels

Posts are removed by a simple lift and turn of the tensioning handle.

Speedpost is easy

Installation requires no special skills, is totally tool-free and can be undertaken easily by a single operative.

Speedpost is versatile

In addition to being a very effective edge protection system, Speedpost can be used as a divider to create safe working areas in virtually every floor/soffit situation.

Speedpost is quick

Rapid installation means that edge protection can be provided extremely quickly to assure the safety of the workforce.

Easy to handle

Speedpost is delivered in pallets containing everything required to fix 75 metres of edge protection.

Speedpost is economic

Speed of installation delivers savings in time and labour.

The Ischebeck Group

Founded in Germany over 120 years ago, Ischebeck is one of the world's principal manufacturers of formwork and falsework systems. Renowned internationally for its Titan support system, the group has a long standing tradition of innovation and engineering excellence. Product quality is a hallmark of the group and the company's manufacturing facilities are amongst the most advanced of their type.

Ischebeck Titan Limited

Ischebeck Titan is a leading supplier of formwork, falsework and related products to the construction industry. The company operates from headquarters centrally located in the heart of the U.K. along with regional offices in Scotland and the North of England.

Product Availability

Substantial stocks of equipment are available ex-stock from the company's strategically located 4-acre distribution site with most items available nationwide on a 48 hour delivery. Products are available for both hire and outright purchase.

Technical Support

Backed by the resources of one of the most respected names in the industry, Ischebeck Titan offers a comprehensive range of support services. The company's Technical Services Division can provide a full drawing and structural analysis service using the latest computerised equipment.
